INDORE

“Students passing out from Indian Institute of Technology should prefer working in our own country instead of going to the western countries,” said chairman of Indian Space Research Organisation (ISRO), A.S. Kiran Kumar on Saturday.

Dr Kumar was addressing the passing out students of BTech, MSc, MTech and PhD of Indian Institute of Technology Indore during the 5th Convocation Ceremony on Saturday.

He said that young minds should use their knowledge and skills for the development of the country for the welfare of their own people and coming generations.

Dr Kumar also highlighted the development of ISRO from the time of Dr Vikram Sarabhai to the present.

Meanwhile, IIT-Indore Director Dr Pradeep Mathur also congratulated the students on their successful completion of the technical courses.

“IT is proud for us that IIT-Indore stands 24th amongst 300 odd institutions as per Government of India’s National Institutional Ranking Framework, the highest rank in the institutions created post 2006. Amongst the Engineering Institutions IIT Indore is ranked 15th and in the teaching and Resources Learning Category, IIT Indore comes at 5th position nationally,” Dr Mathur said. Chief Guest felicitated the students with the degree and awarded the gold medal to the best student.
