

# IIT Indore to host int'l conference in December

● OUR STAFF REPORTER  
INDORE

Indian Institute of Technology Indore is going to host an international conference on “Machine Learning and Signal Processing (ML&SP 2017)” on December 22-25.

This conference is meant for researchers from academia, industries and research & development organisations all over the globe interested in the areas of data mining, artificial intelligence, optimization, machine learning methods/algorithms, signal processing theory and methods.

It will put special empha-

sis on the participations of PhD students, postdoctoral fellows and other young researchers from all over the world.

“It would be beneficial to bring together a group of experts from diverse fields to discuss recent progress and to share ideas on open questions. The conference will feature world-class keynote speakers in the main areas,” IIT Indore says.

All accepted papers would to be published in the conference proceedings in the LNCS series of Springer. Each accepted paper should be registered by at least one author to appear in the proceedings.
