

IIT-I Hosts 67th DAE Symposium on Nuclear Physics

IIT Indore recently hosted the 67th DAE Symposium on Nuclear Physics-2023, marking a historic first for central India. The symposium centered on the theme 'Nuclear Shell Model'. Facilitating scientific exchange and research presentation, the event showcased over 700 papers covering diverse nuclear physics domains. With 550 participants from India and overseas, it fostered interactions among nuclear physics experts. Padma Bhushan Prof VS Ramamurthy inaugurated the event. Sponsored by the department of Atomic Energy, the symposium featured awards like the Young Achiever Award and the Best PhD Thesis Award celebrating groundbreaking contributions in the field.
