

# Denied job, youth gave bomb threat to IIT-I KV

**Our Staff Reporter**

INDORE

A youth with an MCA degree was arrested on Friday for sending a bomb-threat-mail to the Kendriya Vidyalaya situated on the IIT Indore campus.

The accused had sent a mail to KV a few days ago, threatening to destroy the campus, after his job application was rejected by the school administration.

SP (Indore Rural) Hitika Vasal said the principal of the school received an e-mail from an unidentified person that there would be a bomb blast in the school premises on Independence Day.

A team of Simrol police station was formed to investigate the case.

During investigation, police managed to identify the accused as 30-year-old Chetan Soni, resident of Barnagar in the Ujjain district, and the present resident of the Aerodrome area of the city. First he tried to mislead the police, but later he confessed his crime. Soni allegedly informed the police that he completed his MCA in 2015 from an Indore-based college and since then he was searching for a job.

Recently he applied for a technician's job at the Kendriya Vidyalaya, but his application was rejected.

To avenge the rejection, he decided to send the threat e-mail. As he had applied for a job there, he knew the principal's e-mail ID.
