Indore

As part of Rashtriya Avishkar Abhiyan (RAA), a total of about 60 students and 5 teachers from Lokmanya Tilak Vidya Vihar HS School, Ujjain, visited Indian Institute of Technology Indore on Wednesday.

The school students and teachers visited the chemistry lab, physics lab, bio-science and bio-medical engineering lab, workshop, engineering labs, and library.

They interacted with the faculties and the students of the institute.

"At IIT Indore, we look forward to such events where we can engage and promote scientific temper by engaging and igniting the young

minds," said Rahul Sharma, media coordinator of IIT Indore.

To bring focus on innovation and use of technology, ministry of human resource develop-

ment (MHRD) set up RAA scheme. This scheme is aimed at developing interest in science and mathematics and encourages students to take up these subjects for

study. Under the RAA scheme, higher educational institutions have been involved to mentor neighbourhood higher secondary, secondary and upper primary schools.
