

IIT-I empowers JNVs teachers

Indore: Professors and education experts from the Indian Institute of Technology, Indore (IIT-I), provided lessons on comprehensive module on modern teaching techniques, application of technology in classrooms and problem-solving methods to 98 teachers from Jawahar Navodaya Vidyalayas (JNV) in Madhya Pradesh, during a five-day session at the institute.

ISRO former chairman and IIT-I chairman Dr K Sivan said, "This training programme reflects IIT-I's commitment to improving the quality of education in the country. By empowering teachers, we aim to impact the lives of students across the state." He emphasised the critical role of teachers in shaping young minds.

IIT-I director professor Suhas Joshi said, "This training initiative is part of IIT-I's broader mission to support the ministry of education's vision of improving the quality of school education in India. The programme marks a significant step toward empowering educators and ensuring that students in JNVs are equipped with skills and knowledge needed to excel in a competitive world." TNN
