IIT Indore Hosts NetSciX 2025 Conference

IT Indore is hosting the 2025 edition of NetSciX, the signature winter conference of the Network Science Society, from January 15-17, 2025. This is the first time the event is being held in India. Approximately 200 participants will attend 80 talks and poster sessions covering diverse applications of network science. The conference promotes interdisciplinary collaboration across fields like computer science, physics, neuroscience, economics, and more. Prof. Sarika Jalan (IIT Indore) and Prof. Hiroki Sayama (Binghamton University) are leading the event, which will focus on topics such as machine learning, epidemics, and network dynamics.
