

IIT-I Hosts Workshop On Narmada River Basin Management

IIT Indore's Centre for Narmada River Basin Management Studies (cNarmada) hosted a two-day workshop on 'Integrated Approaches To Narmada River Basin Management' recently. The workshop, part of a project initiated by the Ministry of Jal Shakti, aims to rejuvenate the Narmada River by restoring its ecological health. A total of 48 participants from various organisations across Madhya Pradesh attended the event, featuring keynote lectures and discussions on river flow, biodiversity, sedimentation issues and sustainable management practices. The event emphasised the importance of collaboration, tree plantation and holistic river ecosystem management.
