

International Seminar On Women In Science Organised At IPS Academy

The department of chemistry at IPS Academy organised a one-day international seminar under the Global Women Breakfast programme on the theme, Many Voices, One Science. The event was held under the aegis of the International Union of Pure and Applied Chemistry (IUPAC) and the Tata Institute of Fundamental Research, Mumbai, focusing on the role of women in science and technology. Scientist Tanistha Roy Barman from Portugal attended as chief guest, while Archana Chaudhary of the Indian Institute of Technology, Indore delivered the keynote address on intellectual property rights and innovation. Speakers encouraged greater participation of women in research. Director Nidhi Jain and principal Premlata Gupta also urged students to pursue scientific research and innovation.
