DEWAS

Amaltas University and the IITI DRISHTI CPS Foundation of the Indian Institute of Technology, Indore (IIT Indore), signed a Memorandum of Understanding (MoU) to strengthen healthcare services by integrating medical education with modern technology. On the occasion, the two institutions organised an interactive session on 'Digital Healthcare: Transforming the Future of Patient Care', where senior experts discussed the growing role of technology in medicine.

During the session, experts said the future belongs to fully digital healthcare, which will enable accurate patient monitoring and improve treatment delivery, even in remote rural areas. They reached a consen-

sus on strengthening research partnerships, student engagement and innovation programmes. The collaboration will enable Amaltas University students to gain practical experience and develop innovations in medical technology under the guidance of IIT Indore experts.

Amaltas Group chairman said the collaboration marks a significant convergence of medical science and technology.

Amaltas University Pro Chancellor Dr. Salil Bhargava, Chancellor Dr. R.K. Singh, Dr. S.K. Nema, Medical College dean Dr. A.K. Pithwa, Registrar Dr. Abhay Gupta, Dr. U.S. Tiwari, and IIT Indore's Prof. I.A. Palani, Dr. Parimal Kore, Prof. M. Tanveer, Dr. Ayan Mandal, Vaibhav Jain and other members attended the session.
