IIT-Indore Organises Open House On Chemical Engineering

IIT Indore's department of chemical engineering organised its bi-annual 'Open House', bringing together faculty members and students, including newly admitted MTech students, BTech and PhD scholars. Industry expert Satish Agrawal, senior asset manager, delivered the keynote address and discussed career opportunities in chemical engineering, industry trends and the evolving renewable energy sector. Faculty members also presented their ongoing research activities. The event concluded with an interactive session on the oil and gas sector, renewable energy and career pathways. The department also announced the second edition of the Malwa Chemical Conclave, scheduled for Oct 12 at IIT Indore, focusing on industry challenges, innovation and academia-industry collaboration.
