Indore

Among 749 institutions globally, Indian Institute of Technology Indore has made a debut in the Times Higher Education World Rankings in Computer Sciences, in the 251-300 bracket.

Also, in Engineering and Technology, IIT Indore has maintained its position in the 301-400 band among 1008 institutes.

The disciplines included in Engineering and Technology are General Engineering, Electrical and Electronics, Mechanical, Aerospace, Civil and Chemical Engineering. The subject table utilizes the same performance indicators as used in the

overall World University Rankings such as Teachings, Research, Citations, Industry and International but their weightages has been carefully calibrated and adjusted.

IIT Indore has not only maintained its top 400 global ranking in 2019 and 2020 but also appeared as the top IIT among all second generation (2G) IITs in individual subject rankings.

When contacted, IIT Indore director Prof Pradeep Mathur remarked, "Investment in Research and active engagement of excellent academicians at IIT Indore is showing results. We must keep working hard without losing focus. It is a matter of time that we will achieve our target to be among the Top 200 global institutes in the coming years".
