

# IIT Indore hosts Samsung Innovation Award 2019

Student Entrepreneurship Support Cell (SESC) conducted Samsung Innovation Award event at IIT Indore campus in collaboration with Samsung R & D Institute Bangalore. This award event witnessed excellent response from the student teams of IIT Indore and wonderful innovative ideas were proposed. This year, the theme of the event was 'Systems that learn' which included components, applications and mobile specific solutions. Following this, student teams were asked to submit their innovative ideas within 2 months. A total of 18 idea submissions were received from several departments of the institute. The first-round filtration of 10 ideas was carried out by the faculty members. A total of 6 ideas

were shortlisted by Samsung Research Institute for the finale of the event on 8th November 2019. During the finale of the event on 8th November 2019, 6 ideas were presented to the officials from Samsung R & D Institute. The first prize of Samsung Innovation Award went to Ram Mohril and mentor Dr Bhupesh Lad for 'Book 360', a technology to enhance the textbook reading and learning experience of the users. Second prize went to Chaitanya Mehta and mentor Dr. Devendra Deshmukh for 'Orchard-Stromer', a tree climbing Quadruped Robot. The team comprising of Nemath Ahmed, Suraj Polamaina and Shavez Malick won the third prize for 'Nocturnals', a technology to assist visually impaired. ) )
