

3-day int'l meet at IIT-I ends

Indore: International and national experts discussed state-of-the-art technologies related to precision manufacturing, micro mechatronics and smart manufacturing during the 11th International Conference on Precision, Meso, Micro and Nano Engineering (COPEN-11) organised at Indian Institute of Technology (IIT), Indore.

The three-day conference concluded on Saturday with participation from nearly 300 scientific and academic students and industrial professionals.

Professor Pradeep Mathur, Director, IIT, Indore said, "In line with the institute's aggressive drive towards 'Make

in India' vision, the COPEN-11 conference at IIT Indore has been timely and essential." Mathur said precision manufacturing, micro mechatronics, smart manufacturing, material processing and technology for smart industry among others were discussed by experts at the conference.

In the conference, 220 research papers, 12 keynote addresses and 15 demonstrations were deliberated by delegates including foreign participants from Russia, Japan, UK, America, and Singapore. Workshops on "Precision Micro and Nano Engineering" and "Smart Manufacturing" were also conducted in the conference. TNN
