

## **IIT-I to help IMC with capacity building of staff**

**Indore:** Indian Institute of Technology (IIT) Indore has signed a memorandum of understanding (MoU) with Indore Municipal Corporation (IMC) for capacity building of IMC personnel.

Besides capacity building of civic personnel, this MoU also includes support in research and study in existing technology, identifying new technology and innovation to control air pollution and increase Air Quality Index of Indore.

The MoU was signed by dean of Research and Development, IIT Indore, Dr IA Palani and commissioner, Indore Municipal Corporation, Pratibha Pal for a period of five years.

Both the organisations will work on sharing of expertise, experiences, and ideas in the areas of innovation and research in the field of air quality and pollution control.

IIT Indore will support IMC in research and study of existing technology and systems. It will also identify and provide suggestions for new technology and innovation to control air pollution and increase Air Quality index of Indore city. Both will work together on "Ek Bharath Shrestha Bharat" and "Swachh Bharat Abhiyan". TNN
