**INDORE:** The Board of Governors of the Indian Institute of Technology (IIT), Indore visited the site of the Institute in Simrol as the work on the site for upcoming campus building is in progress.

Estate Officer and Project Engineer of IIT Indore, A. Pandey, gave a small presentation at the site about the various aspects related to the campus development.

Ajay Piramal is the Chairman of the Board that includes emi-

nent personalities from the industry, academia and central and state governments.

Currently, IIT Indore has got possession of the 432 acres of land out of the 502 acres required for institute building. All board members expressed a keen desire to the time when the remaining land can be handed over to the institute. A meet by the Board of Governors was conducted at the Institute where the progress work related to the project was discussed.

The faculty members of the Institute also accompanied the Board of Governors to Simrol.
