

# IIT-I fest from Apr 5

TIMES NEWS NETWORK

**Indore:** The Indian Institute of Technology (IIT-I) will organize a three-day cultural cum technical fest from Thursday.

The fest will see a series of events including workshops on robotics and 3D animation. Students from various cities across the country will participate in the events.

In the technical segment, the institute will host 'The road to rutas'. It will be a techno-management industry simulation strategy event where teams will apply their technological and managerial skills to solve industrial problem. Robo race and LAN gaming competition are also on chart of the event.

Seven bands from different cities will also compete for the
