

## IIT-I sets up advisory panel for int'l meet

TIMES NEWS NETWORK

**Indore:** Indian Institute of Technology, Indore (IIT-I) has set up a 57-member jumbo advisory committee for its second International Conference on Intelligent Robotics, Automation and Manufacturing (IRAM) 2013.

Though the conference is in December this year, the committee has been set up to give expert advice to make the event a success. The committee comprises eight professors from Japan, China, South Korea and USA and 49 Indian professors from different IITs and other top engineering institutes of the country.

The conference aims to bring together experts from academics, scientists and industrial communities to address new challenges, presents their latest research findings, ideas, development and perspectives of the future directions in the fields of robotics, automation and manufacturing. The conference is structured as plenary lectures followed by parallel sessions in three different streams.

All full paper submissions will be peer reviewed and evaluated based on originality, technical and/or research content, correctness, relevance to conference, contribution, and readability. All accepted papers will be published by reputed publishers like Springer / IEEE. Select best papers from the conference proceedings will be published in the reputed peer reviewed journals based on their scope, relevance and quality.

The last date for submitting the full-length paper is July 15, 2013.
