INDORE

A 2-day Ramanujan Conclave-2015 will kick-start at Indian Institute of Technology-Indore, on Tuesday.

Named after Mathematics genius Srinivasa Iyengar Ramanujan, this conclave which is being organised by the Department of Science and Technology will see participation from Ramanujan fellows from various institutes across the country.

"At this historical event, we would like to encourage our multi-disciplinary research scholars to showcase their innovative research at the poster presentation session," IIT Indore said.

The IIT-I had invited posters from students and research scholars. The best poster would be awarded during the conclave.

Participating students will also get a chance to interact with Ramanujan Fellows during the conclave.

Ramanujan was a self-taught, pure mathematician, known world over for his brilliant mathematical skills. Ramanujan was born on December 22, 1887. The Government of India declared the birthday of Ramanujan as 'National Mathematics Day'.
