Dr Anirban Sengupta, a faculty member of IIT Indore, has been granted a patent for his invention titled "Design Space Exploration of Optimal K-Cycle Transient Fault Tolerant Datapath based on Multi-Objective Power-Performance Tradeoff".

This is the second patent of Sengupta and 15th patent of IIT Indore.

This year, the institute secured five patents. First one to secure patent this year was Prof Santosh Vishwakarma.

After Vishwakarma, Prof Shaibal Mukherjee and Prof Vimal Bhatia had also secured patents.
