'Smart Manufacturing' team of Indian Institute of Technology, Indore won the 'National Technical Institutes Competition 2016' at the Manufacturing Today Awards & Conference-2016 organised in Pune lately.

Winning team comprised of Karthick S, Vaibhav Bedi and Vaibhav Pandhare. Team demonstrated a working demo of industrial internet of things using 3D print-

ing and various computational and sensing infrastructures. The work is part of the ongoing Newton-Bhabha project at IIT-Indore, in collaboration with

Institute for Manufacturing, University of Cambridge.

"At the conference, project was well received by industries like, TATA Motors, JCB, Nokia, Mahindra, Raymond, Blue Star, etc. Many of them showed interest in collaboration with IIT-Indore," said Nirmala Menon, media in-charge of IIT-Indore.
